Villy is from Norway and has been hosted by the Lewis family. She was involved as the girls basketball manager, ran on the track team, and became part of the Homecoming Court. She has made wonderful friends and we will miss her!

"Similarities between Cambridge and my hometown would be the size of the town, and the friendliness of the people here. Differences between Norway and USA would be the school system, and how engaged people are in communal events and sports here."

"Returning to Norway will be tough, especially having to leave my second family and friends. It is insane how fast I felt at home in this new household and community, and how quickly I made friends with the kids in this town. So I'd definitely say family and friends is what I'll miss the most. Oh, and mac n cheese!"

Special Thanks To...

Chris Allen, Angela Anderson, Mary Franck, Jim Letterle, Photographic Arts, Teachers, Coaches & Staff of District 227, and Cambridge parents

We really appreciate your time and help to make this yearbook possible!

Colophon

The Cambridge Jr/Sr High 2019 Yearbook had 85 pages. The theme "This Is Us" was used throughout the book. There were 100 books published by Walsworth in Brookfield, Missouri. Our yearbook sales Representative was Jim Straub and our Customer Service Representative was Alicen Wright. The yearbook cover and theme was designed by the Cambridge Yearbook Staff and refined by the artists at Walsworth. The yearbook sold for \$50 with a special price of \$40 for the senior class. 92 yearbooks were sold by the end of the school year. Name stamping was printed on 17 yearbooks in bright silver. The headlines were written in *Casual Hand* and *Egyptienne*. Sub-headlines were written in *Tacky*. Captions were written in *Egyptienne* and *Lynn*. Rosters were written in Times New Roman.

This 2019 yearbook was a quite a challenge for many different reasons. Sometimes a blank slate is an overwhelming task. Next year, I will approach the yearbook with the following quote in mind,

"You don't have to see the whole staircase. Just take the first step."

- Martin Luther King, Jr.

It is an honor to not only be a part of, but to preserve your memories as well. I hope you enjoy this memory keeper and years from now you will look back with fond memories of your days here at Cambridge Jr/Sr High School.

Sincerely,

Ms. Sunny Letterle

YEAR in RE- VIEW NEWS

Rise from the Ashes

Sorting through the ruins of his former home, Lou Donnelly, left, and his brother-in-law, Donald Weeks, find little remains after the Camp Fire blazed through Paradise, California, in November. The fire, which was California's largest, deadliest and more destructive than the previous seven most destructive fires combined, cost at least 85 people their lives and displaced more than 250,000. Many remained missing as rescue crews continued their search. The Camp Fire burned concurrently with the Woolsey and Hill Fires in Southern California.

Rain, Rain, Go Away

Hurricane season brings two particularly destructive hurricanes to the eastern coast. Hurricane Florence made landfall in North Carolina in September, bringing record-shattering rain and flooding, while October's Hurricane Michael, characterized by heavy winds, was the strongest storm to ever hit the panhandle of Florida. The storms killed more than 90 people and caused billions of dollars in damage.

Stalemate

As the government shutdown stretched on to become the longest in U.S. history, "We're Closed" signs became increasingly common, as seen at the National Zoo and other popular attractions. Over 800,000 federal workers were affected, not including government contractors, when an agreement on funding could not be reached. Those categorized as essential personnel worked without pay while those categorized as non-essential were furloughed starting in December.

Count Me In

The 2018 midterms see the highest turnout in over a century, fueled by a polarized political climate and heightened voter enthusiasm. Democrats easily regained control of the House but failed to win back the Senate, with Republicans gaining two seats to strengthen their hold. A record number of women and people of color won seats, making this the most diverse Congress ever. Nancy Pelosi, the first female speaker of the House, made history by becoming the first person in over 60 years to be reelected after leaving the position.

Royal Delivery

American actress/activist-turned British Royal Meghan Markle, Duchess of Sussex, sports her baby bump. Just five months after her wedding to Prince Harry, Duke of Sussex, in May 2018, Kensington Palace announced the couple was expecting their first child, due in the spring of 2019, with all members of the royal family reportedly delighted by the happy news. Regardless of gender, the baby will be seventh in line to the throne.

Finding Your Balance

A baby goat brings smiles and practices its own balance while perched on an enthusiast's back. With millions of Americans trying yoga each year and more than two million goats in the United States, it was only a matter of time before someone put them together. Though its origins are somewhat murky, the goat yoga trend spread quickly, offering a good time to human and caprine practitioners.

Fighting for Our Future

Levi Draheim, 11, speaks at a climate change rally in Eugene, Oregon. Draheim was one of 21 young plaintiffs suing the United States government for failing to protect the Earth from the effects of climate change. In *Juliana v. United States*, petitioners claimed the promotion of fossil fuels threatens the survival of future generations.

YEAR in RE- VIEW ENTERTAINMENT

A Marry Christmas Season

December becomes a month of "I do" for celebrities. Fans learned singer Nick Jonas and actress Priyanka Chopra wed in lavish dual Christian and Hindu ceremonies in India after a four-month engagement. Singer Miley Cyrus and fiancé Liam Hemsworth wed in an intimate home ceremony fans only discovered through their Instagram accounts. Both weddings followed the official confirmation in November that singer Justin Bieber wed model Hailey Baldwin.

The New Playground

The hugely popular game Fortnite: Battle Royale continues to be a hit with children and teens, garnering over 200 million users worldwide. Groups of 100 battled virtually on an island where they fought to be the last player standing while avatars dressed in costumes and pulled out dance moves. The free download allowed users to collect weapons and resources as they played individually or in groups across multiple platforms.

A Pantone Year of Fashion

Supermodel Ashley Graham, recently named Fashion Force of the Year by Daily Front Row during New York Fashion Week for her body positivity activism, shows off some of the year's hottest fashion trends, such as neon colors. Neons and corals were seen everywhere from celebrity fashion to Pantone® Colors of the Year. Other popular trends included distressed denim, crop tops and tube tops, waist bags a.k.a. fanny packs, scrunchies, expensive athletic shoes, vintage-style glasses with semi-translucent frames, bike shorts and cargo pants, with many nods to early 90s fashion.

The Audio Experience

The popularity of podcasts continues to grow. In 2018, it was estimated that 73 million people listened to podcasts in the United States and this number is expected to increase to an estimated 132 million listeners by 2022. Popular podcasts included *This American Life*, *Serial*, *The Stuff You Should Know* and *Dear Hank & John*, hosted by young adult author John Green and his brother, Hank.

Famous, Fabulous and Influential

Queen of Soul Aretha Franklin, 76, passes away in August, but her legend endures. Four days of mourning, with a memorial service in her hometown of Detroit, featured celebrity tributes and fabulous fashion inspired by the diva. Franklin saw more than 100 of her singles place in the Billboard charts, received a Grammy Lifetime Achievement Award, was the first woman inducted into the Rock and Roll Hall of Fame and was bestowed a Presidential Medal of Freedom.

What a Handful

Cradling her four Grammys, Kacey Musgraves celebrates a successful night at the Grammys. Musgraves won Album of the Year and Best Country Album for "Golden Hour," Best Country Song for "Space Cowboy" and Best Country Solo Performance for "Butterflies," tying with Childish Gambino for most awards of the evening. She became the first country artist since Taylor Swift to win Album of the Year.

Vive la Champions

France beats Croatia 4-2 to win the 2018 FIFA World Cup title. In a dramatic blow, Croatia's forward, Mario Mandzukic, sent the ball to the wrong goal by mistake, scoring for France. Kylian Mbappe, 19, scored a goal just over an hour into the game, joining Brazilian soccer star Pele in history as the only two teenagers to score at a World Cup Final. French coach Didier Descamps said France would be "on top of the world for next four years."

Objective: Victory

Gamers fight a virtual battle in October, seeking to win the 2018 eSports World Convention finals. As the popularity of eSports grew, massive arenas were built and competition prizes topped \$1 million. One study found young gamers spent more time watching other people play video games online than they spent watching traditional sports on television.*

Feel the Glove

After a win in game 5, Eduardo Nuñez and Xander Bogaerts of the Boston Red Sox celebrate their ninth World Series championship. The defeat of the Los Angeles Dodgers included a nail-biting 18-inning game, which was the Dodgers' only victory in the series. It was especially impressive for being Alex Cora's first year as a manager in the Major Leagues. The Red Sox ended the season 119-57.

Westward Bound

After a free agency move to the Los Angeles Lakers, NBA star LeBron James still works to overpower opponents. James moved to L.A. despite an incredibly successful streak in Cleveland, where the Cavaliers made it to four consecutive NBA finals. While James got off to a winning start with the Lakers, an injury on Christmas Day caused him to miss several games while he recovered.

Suit Yourself

Outrage explodes when French Tennis Federation President Bernard Giudicelli says he intends to introduce a dress code following Serena Williams' formfitting catsuit as "one must respect the game and place," and that her outfit would no longer be accepted. Williams wore the outfit in her first Grand Slam appearance after giving birth to help protect her from blood clots and said the outfit made her feel like a "queen from Wakanda." Tennis legend Billie Jean King called it a "policing of women's bodies."

Don't Pull Me Down

Fighting to regain the ball, Los Angeles Rams cornerback Marcus Peters grips New England Patriots wide receiver Cordarrelle Patterson as he advances with the ball during Super Bowl LVIII in Atlanta. The Patriots won 13-3 in their sixth Super Bowl victory, tying with the Pittsburgh Steelers for most Super Bowl titles, and Julian Edelman was named MVP of the game. It marked the lowest-ever Super Bowl score and the fewest touchdowns in a Super Bowl game.

YEAR in RE- VIEW SCIENCE/ TECHNOLOGY

Looking to the Past

Genetic testing kits like 23andMe and Ancestry continue to grow in popularity. Their use helped investigators find crime suspects and solve decades-old cold cases. There was also a downside, with some users finding unexpected results, leading to uncomfortable family talks.

Seeing Red

November marks a major space exploration accomplishment as NASA's InSight spacecraft lands on Mars. The journey was especially tricky because InSight was too far away to pilot the landing, so the craft landed itself, slowing from 12,300 mph in 6.5 minutes. InSight embarked on a two-year geologic core study, which scientists hope will help them better understand why two rocky planets like Mars and Earth are so geologically different.

Powerful Science, Great Responsibility

Excitement spreads through the scientific and medical community about the possibilities made available through the genetic engineering tool CRISPR (Clustered Regularly Interspaced Short Palindromic Repeats). However, ethical concerns were raised when Chinese scientist He Jiankui announced his use of CRISPR to alter the DNA of two twin girls, making them resistant to HIV. His actions were widely condemned by the worldwide scientific community for not following scientific protocol.

First Contact?

What appears to be an asteroid quickly travels through the solar system in 2018. Named 'Oumuamua – Hawaiian for "a messenger that reaches out from the distant past" – its unusual shape and speed caused some scientists to speculate that the object may have been created by an alien civilization. The theory was not widely accepted by researchers.
